

From a Star to Me

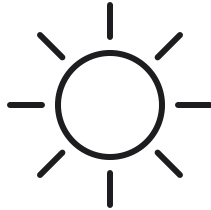

Name _____

Cut out the six cards. Put them in order to follow one tiny iron atom on its billion-year trip.

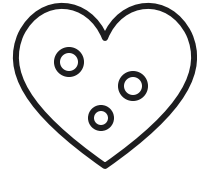

Food

Beans, spinach, and grains carry iron to you.

Star

Iron is made deep inside a huge star.

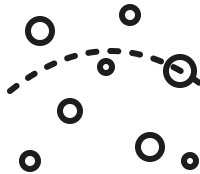

Blood

Iron in your blood helps carry oxygen.

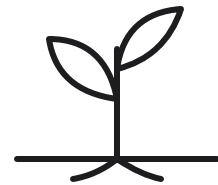

Earth

Stardust gathers to help form planets.

Stardust

The star explodes and scatters iron into space.

Soil & Plants

Plant roots pull iron from the soil.

Glue your cards in order, from the very beginning to YOU:

Where do you think a tiny tear goes after it dries? Draw it:

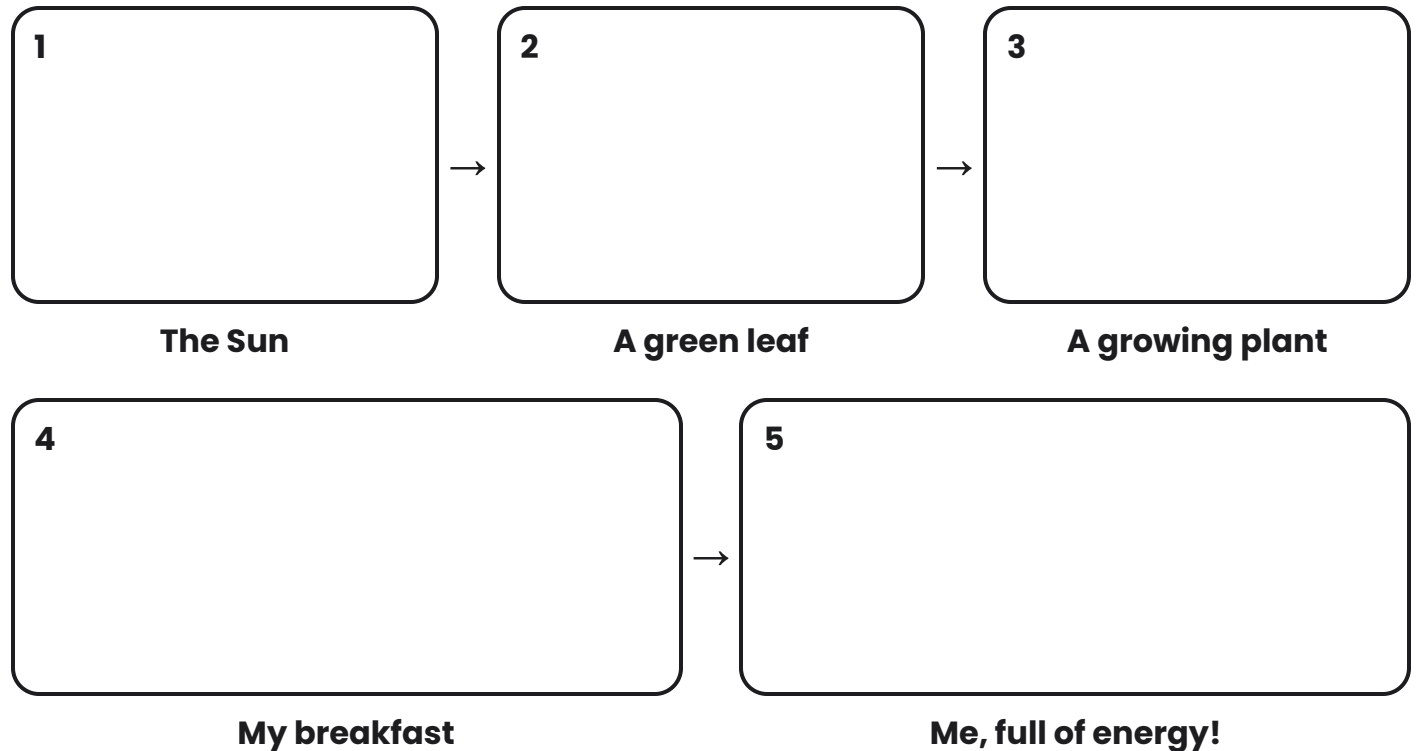

FOR GROWN-UPS

Answers: 1 Cloud, 2 Evaporation, 3 Rain, 4 Ocean, 5 River. The same water has been moving around Earth for billions of years.

Sunshine to Spoon

Name _____

Draw each step to show how energy from the sun ends up in your breakfast bowl.

My breakfast today was:

Something I can do with my sunshine energy:

FOR GROWN-UPS

Plants use sunlight to make food (photosynthesis). When we eat plants, or animals that ate plants, that stored sunshine becomes our energy.

The 7 Days of Creation

Name _____

Draw a picture in each box to show what was made on that day.

Day 1

Light, day and night

Day 2

Sky above the waters

Day 3

Land, seas, and plants

Day 4

Sun, moon, and stars

Day 5

Fish and birds

Day 6

Animals and people

Day 7

God rested

My favorite day

Circle your favorite day and tell someone why.

FOR GROWN-UPS

Based on Genesis 1:1 to 2:3. Read one day at a time and let your child draw it in the box before moving on.
